"I have been using Postum for the last seven or eight years, and think it has had a good deal to do with my looking younger than 55 years of age,

"I recommended it to all my patients, and those who have been using it have only praises for its taste and its good effects on their nervous systems; like me they have given up tea and coffee altogether." Postum is a pure food-drink made of wheat and a small proportion of molasses - roasted and skilfully blended. It is absolutely free from the coffee drugs,

caffeine and tannin - common causes of heart, stom-

about it-only common use.
